Invites FAQ

These are the most Frequently Asked Questions related to the invites system.

Q: Why does the platform say "Invalid invitation code, please try again"

A: There's many reasons why your invitation code might be invalid. Did you make a typo? Otherwise, you probably didn't use the invitation in time (yes, I set a time limit for every invitation) or shared your invitation code so it was used by someone else

Q: Why can't I download content from Plex?

A: Whoops. I probably messed the invitation up. Leave a comment with a short description of the problem and your Plex-username and I'll manually fix it

Q: I don't like my personalized invitation code?!

A: Tough luck. Be happy you got one :)
