

Account Creation

1. First create an account on the “Nasmans Library” web page. You can access it on:
<https://library.nasmans.nl>
2. On the landing page, click the “REGISTER” button.
3. Enter your preferred username and a working email-address. Don’t use 10-minute-mail addresses or the like, I’ll personally remove those. A working address is important to secure your account.
4. Click “REGISTER”. Your login credentials will be sent to your entered email-address. If you can’t find the e-mail, check your spam-folder.
